

# Aqualine™ 4½" x 9"

## Permeable Paver

Aqualine™ 4½" x 9" is a versatile paver featuring not only the environmentally friendly benefits of a permeable paver, but also high visual appeal, low maintenance and proven durability. Aqualine's versatile pattern range when combined with additional sizes allows for flexible design options, making it an excellent choice for vehicular use.

Belgard Environmental Product

## Benefits of Aqualine™ 4½" x 9":

Belgard's Aqualine permeable pavement systems eliminate stormwater runoff and improves water quality

- Interlocking blind spacer bars for increased structural performance and aesthetics
- Smooth surface with micro-chamfer to reduce vibration which can provide an ADA-compliant pavement
- True installed dimensions with variety of sizes for optimizing design
- Optimal joint openings for infiltration and maintenance

## Benefits by the numbers:

- Chamfer width 3 mm
- Manufactured joint width 7 mm
- 100% pervious surface
- 6% surface open area
- Typical surface infiltration rate: > 500 in/hr\*  
*(varies based on joint infill gradation)*

*Interlocking pavers can be used for a variety of different vehicular applications. Appropriate shape and thickness is based on project-specific conditions including type of loading, base design, and subgrade conditions. It is recommended that you consult a Belgard representative in your area before specifying products for vehicular applications.*

*Check with your local Belgard representative for Colors and Finish options.*

*\*Test with No. 89 joint fill*

## Aqualine™ 4½" x 9"
