## Mirage Elevated Systems

The Mirage porcelain paver line offers several styles to create fabulous contemporary outdoor living spaces. Outdoor porcelain pavers are frost-resistant, skid-resistant, stain-resistant and easy to clean. Combined with incredibly high breakage loads (up to 2,000 pounds), porcelain pavers are the perfect solution for gardens, terraces, and high traffic outdoor areas. StoneDek System™ is a sub-flooring system that installs on to of pre-existing or newly built wood or metal deck joists. The durable sub-flooring grate allows for application of stone to almost any hardscape or deck design. The entire StoneDek System™ is engineered for strength and easy installation to create an attractive, long-lasting, low maintenance deck.

SYSTEM	MIN. HEIGHT	MAX. HEIGHT	WIND UP-LIFT RESISTANT	PAVER SIZES	APPLICATION	LEAD TIME	METAL BACKING REQUIRED
