COMMERCIAL

# PAVER APPLICATIONS

## Pedestrian

Designated for areas that are primarily for pedestrian applications including commercial plazas that may require occasional access for emergency or maintenance vehicles, as well as residential driveways.

## Light Vehicles

Designated for commercial vehicular areas, access ways, and parking lots where only cars and light trucks are anticipated. Heavy vehicles should have limited access and use.

## Occasional Heavy Vehicles

Designated for vehicular areas, parking lots, and roadways where limited heavy vehicles are anticipated daily such as large delivery trucks or garbage trucks.

## Frequent Heavy Vehicles

Designated for vehicular areas, parking lots, and roadways where heavy vehicles are a regular component of the daily traffic volume.

*Paver application icons are general recommendations. Site conditions and pavement cross section must be considered. Paver application icons are based on placement over unbound aggregates for setting beds, base and subbase.*

# PAVER COLORS & FINISHES

## Standard Colors

GRAPHITE

FOUNDRY

LINEN\*

*\* Light colored paver has an SRI value of  $\geq 29$  and/or an SR value of  $\geq 0.33$*

## Regional Colors

In addition to our standard color offering, Belgard Commercial products come in a number of local colors. See next page for all colors and finishes available.

## Finishes

Manufacturing processes generate various finishes that are distinctive and can create the exact look you desire for your project. All processes are not available in all locations. Check with your local Belgard Sales Representative for more information.

### Standard (smooth)

Unit surfaces and micro-chamfers are carefully molded using a high-quality precision machined steel shoe assembly which creates units with an extremely smooth surface and precision detailed chamfer.

### Antiqued

Units are molded to form specific surface and side textures that are processed through tumbling equipment, imparting a distressed or aged appearance.

### Shot Blast

Exposes the surface of the paving unit to reveal the natural beauty of the aggregates and pigmentation.

### Ground Face

The top of the paving units are ground smooth which exposes the aggregate colors and pigmented background.

# PAVER TEXTURES, COLORS & FINISHES

## Blended Colors

## Solid Ground Face Colors

## Solid Shot Blast Colors

## Solid Standard Finish Colors

## ADA Kits & Truncated Domes

*Note: We do our best to use high resolution photography that is representative of our actual colors in this book. However, it is highly recommended that actual, full-size samples be obtained before approving colors.*

\* May be Suitable for ADA applications. Always evaluate site-specific uses to ensure surface suitability. Product installation and surface maintenance influence compliance with ADA Standards for Accessible Design Section 302 Floors or Ground Surfaces. Tumbling or antiquing pavers can also create surface or edges that may make the product unsuitable for ADA applications.

Secondary processes and finishes including, but not limited to, face-grinding, may impact dimensional tolerances from base dimensions.

*If installing on elevated surface over ¾" all porcelain must have a factory applied fiber mesh backing.  
Spacers are required for all porcelain paver installations. For vehicular applications, there must be a mortar install over a concrete slab. Visit [Beldgard.com/porcelain](http://Belgard.com/porcelain) for additional installation details.*

# PROFESSIONAL SUPPORT

## ENVIRONMENTAL SOLUTIONS

Belgard consultants can work with your team to develop the best PICP system design or retaining wall configuration to control runoff volume and discharge rates, improve the quality of local groundwater, reduce or prevent downstream impacts, and minimize the land consumed for stormwater management.

## CAD FILES

For your convenience, Belgard offers a constantly expanding library of easy-to-download CAD files of our products and patterns.

## CONTINUING EDUCATION

Belgard offers a variety of ongoing educational programs for our industry partners, including Lunch & Learns, online CEU courses, and our Belgard University training program.

## SITE PLANNING

The experts at Belgard can help you optimize your site in a number of ways—whether you're looking for creative ways to define public spaces, manage or harvest stormwater, or increase the useable space for development.

## ENGINEERING SERVICES

Our team of design consultants can help address both aesthetic and engineering design concerns, material quantity estimates and permit ready plans.
